**Jan 09-10, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABP 2020 : International Conference on Advances in Biofuels Production is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biofuels Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biofuels production

Bioreactor design for the

production of biofuels

Pretreatment of lignocellulosic

feedstocks

Enzyme and microbial technology

Biobased products development

Feedstocks and processes

development

Fermentation technology

Bioreactor design

Cellulose biosynthesis

Lignin biosynthesis

Alteration of lignin composition

New biofuel crops
