

CALL FOR PAPERS

ICARRE 2020
Jan 30-31, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICARRE 2020 : International Conference on Advanced Road and Railway Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Road and Railway Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building structure and bridge engineering
Structural engineering
Geological and geotechnical engineering
Hydraulic engineering
Seismic engineering
Transportation engineering
Water supply and drainage engineering
Road and railway engineering
Sanitary and ground water engineering
Harbor engineering
Engineering management
Heating, gas supply, ventilation and air
Carrier operation engineering

Concrete structures
Disaster prevention and mitigation
Environment-friendly construction and development
Material quality and control
Surveying engineering
Safety and monitoring
Monitoring and control of structures
Reliability and durability of structures
Construction technology
Coastal engineering
Computer simulation and cad/cae
Computational mechanics
Structural analysis and design
