

CALL FOR PAPERS

ICCTEA 2020
Jan 30-31, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTEA 2020 : International Conference on Clinical Technology and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Clinical Technology and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Clinical technology	Innovative solutions
Clinical healthcare technology	Materials for the clinical
Health information technology	technology applications
Engineering, science, design and	Medical engineering systems
technology of healthcare	Materials and structural mechanics
Design and mathematical methods	Biomaterials with implant design
Characteristics of relevant	and technology
materials, components and equipment	Clinical signals
Manufacturing operations	Technology trends
Biological and medical systems	Renal technology
Healthcare technology	Diagnostic radiography
Clinical setting	Electronic health record
Innovative solutions	Clinical point of care technology
Modelling and analyzing clinical	Technological innovations,
technology problems	opportunities and challenges
Analysis, modelling, simulation,	
and design of engineering systems
