

# CALL FOR PAPERS

**ICDAT 2020**  
**Jan 30-31, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDAT 2020 : International Conference on Digital Architecture and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Architecture and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital architecture  
Space and architecture in the digital age  
Scripted, iterative, and indexical architecture  
Digital technologies in architecture  
Computer modeling, programming, simulation, and imaging  
Architecture and architectural industry under digitalization  
Digital methodology of design of green architecture

Digital design and development of construction tools  
Teaching of digital architecture design  
Practice and exploration of digital architectural design  
Performative and parametric design  
Architectural drawing  
Electromagnetic formats  
Computer algorithms
