

CALL FOR PAPERS

ICEHM 2020
Jan 06-07, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEHM 2020 : International Conference on Ecosystem Health and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecosystem Health and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecosystem health
Environmental change and ecosystem conditions
Simulation and modeling of ecosystem changes
Resilience and restoration of degraded ecosystems
Policy simulation and options
Ecological development
Synthetic ecology
Bioengineering
Restoration ecology
Ecology conservation
Ecosystem rehabilitation

Stream and river restoration
Reclamation ecology
Non-renewable resource conservation
Air quality and atmospheric pollution
Aquaculture
Conservation
Ecosystems and ecology
Ecosystems management
Environmental economics - sustainable services and systems
Environmental health
