

CALL FOR PAPERS

ICWETTEH 2020
Jan 06-07, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWETTEH 2020 : International Conference on Wearable E-Textile Technologies and Energy Harvesting is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wearable E-Textile Technologies and Energy Harvesting. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wearable e-textile technologies
Textile materials
Flexible electronics
Textile antennas
Textile sensors
Transmission lines
Filters
Metamaterials

Textile electrodes
Biological impact (sar) of
e-textiles
Energy harvesting
Electromagnetic field exposure
Electromagnetic compatibility
Wearable applications
Reliability
