

# CALL FOR PAPERS

**ICASISP 2020**  
**Jan 13-14, 2020**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASISP 2020 : International Conference on Acoustics, Speech, Image and Signal Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustics, Speech, Image and Signal Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Audio and acoustic signal processing  
Bioimaging and signal processing  
Design and implementation of signal processing systems  
Image, video and multidimensional signal processing  
Industry technology Systems  
Information forensics and security  
Machine learning for signal processing

Multimedia signal processing  
Sensor array and multichannel signal processing  
Signal processing education  
Signal processing for communications and networking  
Signal processing theory and methods  
Speech processing  
Spoken language processing
