

# CALL FOR PAPERS

**ICFS 2020**  
**Feb 06-07, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFS 2020 : International Conference on Fluids and Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluids and Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fluid-structure interactions  
Numerical methods for  
fluid-structure interaction  
Computational methods for  
fluid-structure interaction  
Concepts, definitions and methods  
in fluid-structure interactions  
Coupled fluid-structure  
interactions  
Fully Eulerian formulation for  
fluid-structure interactions

Linear solvers for fluid-structure  
interactions  
Error estimation and adaptivity  
Optimization with fluid-structure  
interactions  
Mechano-chemical fluid-structure  
interactions and active materials  
Non-stationary dynamics and coupled  
oscillations  
Fluid-structure interaction with  
contact
