

CALL FOR PAPERS

ICLCOPEA 2020
Feb 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLCOPEA 2020 : International Conference on Life Cycle Oriented Production Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Life Cycle Oriented Production Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|---|
| Product development process | Process control |
| Product decomposition | Manufacturing processes and design considerations |
| Product life cycle | Usability and functionality |
| Product design | Concurrent consideration of product usability and functionality |
| Product design process | Cost estimation |
| Design paradigms | Market demand |
| Design evaluation activities | Materials and innovative product development |
| Design management activities | Globalization and the world economy |
| Design support tools and methodologies | Mathematical models for maintainability |
| Design methodology for usability | Prediction models for maintenance |
