

CALL FOR PAPERS

ICRMTS 2020
Feb 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRMTS 2020 : International Conference on Railway Mass Transportation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Railway Mass Transportation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Design of Light Rail Transit Systems
Distinctions Between Systems and How Their Characteristics Influence and Govern the Engineering of Their Alignments and Track Structures
Railway Engineering Principles and How They Apply to the Three Transit Systems
Design, Construction, and Maintenance of Rail Transit Systems
Electrification
Crossings
Rescheduling
Layout and Design of Transit Yard Facilities
Traction Power Systems
Noise and Vibration Control for Rail Transit Passenger Systems

Monitoring and Maintenance
Railroad Infrastructure Engineering
Rail Equipment Engineering
Signal and Train Control Engineering
Service Quality and Operations
Research
Planning and Development
Safety and Security
Energy Efficiency and Sustainability
Urban Passenger Rail Transport
