

# CALL FOR PAPERS

**ICSTTA 2020**  
**Feb 06-07, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTTA 2020 : International Conference on Space Transportation Technology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Space Transportation Technology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space transportation

Space transportation systems and technologies

Commercial space transportation

Space transportation and industrial applications

Intelligent technologies in space transportation

Launch systems and propulsion

Possible destinations for space tourism

Commercial space transportation forecasts

Integrated design for space transportation system

Future air-space transportation technology

System vehicles

Earth-to-orbit shuttle

Space tug

Nuclear ferry

Space station modules
