

CALL FOR PAPERS

ICPHMT 2020
Feb 03-04, 2020
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPHMT 2020 : International Conference on Population Health Management and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Population Health Management and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Population health management
Population identification
Risk stratification
Intervention identification
Patient engagement
Outcomes measurement

Annual health screenings
Disease management
Effective population care
Patient-centered medical homes
Population health management and cancer screening
Technology-enabled population health management
