

CALL FOR PAPERS

ICACPM 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACPM 2020 : International Conference on Atomic and Chemical Properties of Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Atomic and Chemical Properties of Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials science and engineering
Investigating materials, products,
structures or components
Properties of materials
Atomic properties
Chemical properties
Atomic mass
Atomic number
Atomic weight
Corrosion resistance
Hygroscopy
pH
Reactivity
Specific internal surface area

Surface energy
Surface tension
Discovery and design of new
materials
Solids
Metallurgy and mineralogy
Materials paradigm
Nanotechnology, biomaterials and
metallurgy
Intellectual origins of materials
science
Failure analysis
Fundamentals of materials science
Structure
Atomic structure
Nanostructure
