CALL FOR PAPERS

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADES 2020 : International Conference on Airport Design and Engineering Standards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Airport Design and Engineering Standards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Airport Engineering
Airport civil engineering
Civil engineering for Airports
Planning, design and construction of terminals and runways
Airports design and construction
Accessible airport facilities
Airport design: additional tools and drawings
Airports GIS and electronic airport layout plan

Airport lighting
Airport pavement design and construction
Airport airspace analysis
Airport construction standards
Airport design and engineering standards
Airport and Safety areas
Types of Airports: International Airports, Domestic Airports, Regional Airports
Airfield
