

CALL FOR PAPERS

ICAEWEAN 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEWEAN 2020 : International Conference on Applications of Electromagnetic Waves and Electromagnetic Applications in Nanotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Electromagnetic Waves and Electromagnetic Applications in Nanotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Imaging with electromagnetic waves
Sensing with electromagnetic waves
Electromagnetic applications in
biomedicine
Electromagnetic applications in
nanotechnology
Electromagnetic measurements

Electromagnetic modeling of devices
and circuits
Inverse scattering and inverse
electromagnetic problems
Electromagnetic radiators and
antennas
Wireless power transfer based on
electromagnetic waves
Radio-frequency identification
(RFID)
