

CALL FOR PAPERS

ICBCCS 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCCS 2020 : International Conference on Biological Cybernetics and Cybernetic Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biological Cybernetics and Cybernetic Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|--|---|
| Biocybernetics | |
| Biocybernetics and biomedical engineering | Biomedical cybernetics softwares |
| Cybernetics and biological sciences | Multidimensional biophysics |
| Systems biology, neurology and multicellular systems | Harmful and healing biocybernetic transformations |
| Biocybernetics and theoretical biology | Biolaser, biocybernetic transformations and biocybernetic shields |
| Molecular cybernetics, neurocybernetics and cellular cybernetics | Biodiagnostics and healing of biosystems |
| Evolutionary cybernetics | Synthetic biology |
| Computational biology | Superorganism |
| Computational biomodeling | Neurobionics |
