

CALL FOR PAPERS

ICCCE 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCE 2020 : International Conference on Control and Communication Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control and Communication Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control and Information
AI and computational intelligence
Automated Guided Vehicles
Cloud computing
Control Applications
E-commerce
E-governance
E-learning systems and applications
Embedded Systems
Estimation and Identification
E-transformation of organizations
Fault Detection
Flexible Manufacturing Systems

Foundations of computer security
Fuzzy and Neural Systems
Image & video Signal Processing
Industrial Electronics
Industrial robotics and control
Information hiding and digital watermarking
Information Theory
Integrated Manufacturing
Intelligent transportation systems
Linear and Nonlinear System Control
Mechanic Automation
Optimal and Adaptive Control
Process Control & Instrumentation
