

# CALL FOR PAPERS

**ICCEEM 2020**  
**Feb 10-11, 2020**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEEM 2020 : International Conference on Computational Electromagnetics and Electromagnetic Modeling is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Electromagnetics and Electromagnetic Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational methods for  
electromagnetics  
Electromagnetic modeling  
Optimization of electromagnetic  
devices

Electromagnetic inverse problems  
Uncertainty quantification in  
computational electromagnetics  
Electromagnetic devices and  
application
