

CALL FOR PAPERS

ICETCAD 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETCAD 2020 : International Conference on Construction Engineering Technologies and Computer Aided Design is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Engineering Technologies and Computer Aided Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction engineering
technology
Engineering graphics
Applied computer aided design
Technology and environment
Statics for technology
Construction procedures
Strength of materials for
technology
Structural analysis in
construction
Construction computing
Construction codes and
regulations
Principles of management
Construction safety
Soils and earthworks

Structural systems
Industrial cost analysis
Construction testing
Design of temporary structures
Construction mathematics
Concrete and soils technology
Building science
Project planning and scheduling
Estimating
Construction equipment
Construction project management
fundamentals
Concrete structures and formwork
Emerging trends and technologies in
construction
