

CALL FOR PAPERS

ICCMA 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMA 2020 : International Conference on Computer Medical Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Medical Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-Aided Diagnosis
Knowledge Discovery & Data Mining
Knowledge-Based Systems and
Techniques
Decision Support Systems
Medical Devices with Embedded
Computers
Android & Iphone health
applications
Computer-Aided Diagnosis
Knowledge Discovery & Data Mining
Knowledge-Based Systems and
Techniques
Health and welfare
Health insurance systems
e-Health
Web-Based Delivery of Medical
Information

Machine Vision in Medicine
Medical Robotics
Network and Telemedicine Systems
Handheld Computing Applications in
Medicine
Mobile Health
Software Systems in Medicine
Signal and Image Processing in
Medicine
Health Systems and Service
Watermarking methods and
protection
Wavelet methods
Mosaic, image registration and
fusion methods
Indexing and retrieval of images
(image databases)
Object recognition
