

# CALL FOR PAPERS

**ICCMPPM 2020**  
**Feb 10-11, 2020**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMPPM 2020 : International Conference on Construction, Materials Principles and Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction, Materials Principles and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction and materials principles  
Construction principles materials and methods  
Building delivery process  
Foundations  
Sand and gravel  
Mixing concrete  
Making columns  
Reinforcement  
Roofing  
Tying walls to structure  
Wells, septic tanks, plumbing

Governmental constraints on construction  
Loads on buildings  
Load resistance  
The structural properties of materials  
Thermal properties of materials  
Air leakage and water vapor control  
Fire-related properties  
Acoustical properties of materials  
Principles of joints and sealants (expansion and contraction control)  
Principles of sustainable construction
