

CALL FOR PAPERS

ICEEE 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEE 2020 : International Conference on Environment, Engineering and Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environment, Engineering and Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---|---------------------------------------|
| Environment, engineering and energy | Bio-diesel fuels |
| Wind energy technologies | Hybrid energy systems |
| Environmental management systems | Integrated energy systems |
| Solar energy technologies | Wind energy |
| Hydro power | Hydroelectric and geothermal power |
| Global warming and climate change | Energy from tides and waves |
| Biomass industries and energy | Solar electricity and PV applications |
| Management of ecosystems, environment and water resources | Solar cell technology |
| Modelling and assessments | Nanotechnology applications |
| Education for sustainability | Nuclear materials and fuels |
| Green energy | Alternative fuels |
| Bio gas and biomass | |
