

CALL FOR PAPERS

ICETICRTILS 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETICRTILS 2020 : International Conference on Emerging Trends in Industrial Communication and Real-Time Indoor Localization Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emerging Trends in Industrial Communication and Real-Time Indoor Localization Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial internet of thing
Cyber physical systems
Distributed measurement systems
Time synchronization mechanisms
Real-time indoor localization systems
Performance evaluation and modelling of communication systems and architectures

Software-defined networking (SDN)
Cloud and fog computing in future factories
Real-time communication standards
Deterministic medium access schemes and real-time scheduling
In-vehicle real-time communications
Cooperating robot sensor networks
