

# CALL FOR PAPERS

**ICFP 2020**  
**Feb 10-11, 2020**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFP 2020 : International Conference on Fish Pathology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fish Pathology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Host-pathogen relationships  
Studies of fish pathogens  
Pathophysiology and diagnostic methods  
Descriptions of new diseases  
Aquaculture development  
Aquaculture engineering  
Feeding and nutrition in aquaculture  
Aquatic resources and environmental management  
Aquaculture and fisheries economics  
Biotechnology and genetics in aquaculture  
Aquatic health management and diseases

Environmental impacts of aquaculture and/or fisheries  
Fish biology: immunology, physiology and pathology  
Fisheries, aquaculture and climate change  
Fisheries management ,policy and governance  
Marine biology, oceanography and conservation  
Post-harvest technology and value addition
