

CALL FOR PAPERS

ICHEMSA 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHEMSA 2020 : International Conference on Home Energy Management Systems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Home Energy Management Systems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Home energy management
Home energy management systems and technologies
Home energy storage systems
Renewable energy resources in smart houses
Design of home energy management systems
Household device models

Optimal residential energy management
Energy scheduling strategies in smart houses
Smart grid technologies
Real-time monitoring of energy networks
Integration of distributed energy resources
Information and communication systems for home energy management
