

CALL FOR PAPERS

ICIE 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIE 2020 : International Conference on Impact Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Impact Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Impact Engineering
Structural impact and failure
Energy absorbing systems
Terminal ballistics
Dynamic material behaviour and failure
Stress waves

Structural crashworthiness
Blast loading and its effects on structures
High-speed mechanical and forming processes
Hazards assessments, safety and protection involving impact and blast loading
Testing/measurement techniques coupled with application
