

CALL FOR PAPERS

ICMBMM 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBMM 2020 : International Conference on Microbial Biochemistry and Medical Microbiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Biochemistry and Medical Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical biology
Chemical microbiology
Microbial metabolism
Microbial genetics
Microbial assay
Infectious diseases
Microbial diagnosis
Molecular applications
Treatment and prevention
Pathology of infections

Molecular pathology
Clinical pathology
Veterinary pathology
Advancements in diagnostic pathology
Urinary tract infections
Hospital-acquired pneumonia
Airborne transmission
Vector borne transmission
Control and treatment
