

CALL FOR PAPERS

ICMDPTE 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDPTE 2020 : International Conference on Machine Design Process in Textile Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machine Design Process in Textile Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile engineering	Dynamics
Principles of textile engineering	Industrial electronics
Basic computer technologies	Textile physics
Technical drawing	Clothing
Clothing machinery	Weaving
Textile chemistry	Knitting
Machine design process	Physical testing of textiles
Transmission technology	Quality control in textiles
Quality management	Control systems
Factory planning	Fabric design
Machine dynamics	Textile manufacturing
Fashion design	Textile manufacturing practices
Strength of materials	Process control
