

CALL FOR PAPERS

ICMIPA 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIPA 2020 : International Conference on Medical Information Processing and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Medical Information Processing and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Brain Imaging
Acquisition
Multimodal Information Processing
and Analysis
Visualization and Interaction
Computer-Aided Detection and
Diagnosis
Quantitative Analysis and
Interpretation
Multiscale / Multiresolution
Representations
Registration of Multimodal Medical
Data
Imaging for Cancer Therapy
Visualization and Interaction
Quantitative Analysis and
Interpretation
Registration of Multimodal Medical
Data

Segmentation
Statistical and Computational
Models
e-Health
Telemedicine
Healthcare Information Systems
(Multimodal Information Management)
Storage, Transmission and Access to
Medical Information
Medical Devices, Monitoring and
Calibration
Clinical Applications and
Technology Integration
Medical Information Retrieval
Machine Learning/ Pattern
Recognition for Biomedical
Application
Classification
