

CALL FOR PAPERS

ICOSSFD 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOSSFD 2020 : International Conference on Open-Source Software and Future Directions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Open-Source Software and Future Directions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Open-source software
- Foundation of the Open Source Initiative
- Open-source software licensing
- Open-source software development
- Development model
- Advantages and disadvantages
- Lower costs
- Flexibility
- Reliability and quality
- Availability of external support
- Development tools
- Organizations
- Funding

- Comparisons with other software licensing/development models
- Closed source / proprietary software
- Free software
- Open-source versus source-available
- Open-sourcing
- Current applications and adoption
