

CALL FOR PAPERS

ICPEBEP 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEBEP 2020 : International Conference on Power Engineering and Basics of Electric Power is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Engineering and Basics of Electric Power. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power engineering
Power systems engineering
Power systems
Basics of electric power
Electric power transmission
Electric power
Electrical machines
Power generation
Power transmission
Power transmission systems
Power distribution
Utilization
Power electronics

Power system protection
Power flows
High voltage technology
Power electronics
Energy storage
Electrical devices
Energy economics
Generators, motors and transformers
Electric railway networks
Electricity
Energy Systems and Energy Economy
Current and voltage
Computers and digital equipment
