

CALL FOR PAPERS

ICSEDT 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEDT 2020 : International Conference on Software Engineering and Database Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Engineering and Database Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software engineering
Applications of software engineering
Advances in software engineering
Software process
Software engineering practice
Web engineering
Quality management
Managing software projects

Advanced topics in software engineering
Multimedia and visual software engineering
Software maintenance and testing
Languages and formal methods
Web-based education systems and learning applications
Software engineering decision making
Knowledge-based systems and formal methods
Search engines and information retrieval
