

CALL FOR PAPERS

ICSTS 2020
Feb 10-11, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTS 2020 : International Conference on Space Transportation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Space Transportation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space transportation
Space transportation systems and technologies
Commercial space transportation
Space transportation and industrial applications
Intelligent technologies in space transportation
Launch systems and propulsion
Possible destinations for space tourism
Commercial space transportation forecasts

Integrated design for space transportation system
Future air-space transportation technology
System vehicles
Earth-to-orbit shuttle
Space tug
Nuclear ferry
Space station modules
