

CALL FOR PAPERS

ICTMSFD 2020
Feb 13-14, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTMSFD 2020 : International Conference on Transcranial Magnetic Stimulation and Future Directions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transcranial Magnetic Stimulation and Future Directions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transcranial magnetic stimulation
Transcranial magnetic stimulation
for treatment and diagnosis
Transcranial magnetic stimulation
of the brain
Transcranial magnetic stimulation:
principles and applications
Scientific use of Transcranial
magnetic stimulation
Transcranial magnetic stimulation
in psychology, psychiatry,
neuropsychology, and cognitive
science
Transcranial magnetic stimulation
for medical therapy

Technical basis of transcranial
magnetic stimulation
Parameters of transcranial magnetic
stimulation administration
Efficacy and Safety of Transcranial
Magnetic Stimulation
Therapeutic Transcranial Magnetic
Stimulation
transcranial magnetic stimulation
and neuronal activity of the brain
Transcranial magnetic stimulation
and the human brain
Ethical problems in transcranial
magnetic stimulation
