

CALL FOR PAPERS

ICAMSN 2020
Feb 13-14, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMSN 2020 : International Conference on Advanced Materials Science and Nanotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials Science and Nanotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced material and
nanotechnology

Microspores/mesopores materials
Modification and characterization
of nanomaterials

Inorganic and biomedical of
nanomaterials

New functional materials and
composites

Zeolites

Biomaterials

Magnetic and optics materials

Glasses and ceramics

Nanostructured thin films

Doped nanomaterials

Nanocomposites
