

CALL FOR PAPERS

ICCBM 2020
Feb 13-14, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBM 2020 : International Conference on Chemistry of Building Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemistry of Building Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Material chemistry and building materials

Polymer materials and processing

Structural chemistry of materials

Green building materials and technologies

Advances in cement based materials

Sustainable resources and materials use

Material quality and control

Local and recycled materials

Smart and sustainable materials

Concrete technology

Geo-polymer composite materials
