

CALL FOR PAPERS

ICCETP 2020
Feb 13-14, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCETP 2020 : International Conference on Causes and Effects of Thermal Pollution is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Causes and Effects of Thermal Pollution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermal pollution

Thermal pollution, climate change
and global warming

Environmental thermal pollution

Thermal energy conversion

Control and monitoring of thermal
pollution

Causes, sources and effects of
thermal pollution

Impacts of thermal pollution on
humans and wildlife

Thermal shock

Ecological effects

Economics of cooling

Nuclear power plants

Electrical power plants
