

# CALL FOR PAPERS

**ICAAEE 2020**  
**Feb 10-11, 2020**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAEE 2020 : International Conference on Advanced Applied Electrical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Applied Electrical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power system and energy engineering  
Biotechnology  
Power system planning and scheduling  
Power system protection, operation and control  
Transmission and distribution system and apparatus  
Power system stability  
Power generation and sustainable environment  
Power market and power system economics  
Power system modeling, simulation and analysis  
Electromagnetic transients programs  
Wind, solar and renewable energy  
Electronics, information & control systems:  
Communication systems

Intelligent systems and approach  
Information technology application  
Control theory and application  
Knowledge management  
Electrical machines, power electronics & industry applications:  
Electrical machines  
Electric drivers and application  
Electrical traction systems and control  
Electromagnetic and applied superconductivity  
Industrial process control and automation  
Inverter and converter technology  
Fundamentals, materials & education:  
Electrical materials and process
