

CALL FOR PAPERS

ICAR 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAR 2020 : International Conference on Acid Rain is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acid Rain. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acid rain studies and research
Causes, effects and solutions of acid rain
Emissions of chemicals leading to acidification
Natural phenomena
Human activity
Chemical processes
Gas phase chemistry
Chemistry in cloud droplets
Acid deposition: wet and dry deposition
Adverse effects
Surface waters and aquatic animals

Soils
Forests and other vegetation
Ocean acidification
Human health effects
Other adverse effects
Affected areas
Prevention methods
Technical solutions
International treaties
Emissions trading
