

CALL FOR PAPERS

ICBCA 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCA 2020 : International Conference on Biological Cybernetics and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biological Cybernetics and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biocybernetics	Biomedical cybernetics softwares
Biocybernetics and biomedical engineering	Multidimensional biophysics
Cybernetics and biological sciences	Harmful and healing biocybernetic transformations
Systems biology, neurology and multicellular systems	Biolaser, biocybernetic transformations and biocybernetic shields
Biocybernetics and theoretical biology	Biodiagnostics and healing of biosystems
Molecular cybernetics, neurocybernetics and cellular cybernetics	Synthetic biology
Evolutionary cybernetics	Superorganism
Computational biology	Neurobionics
Computational biomodeling
