

CALL FOR PAPERS

ICBETCS 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBETCS 2020 : International Conference on Biomass Energy Technologies and Combustion Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomass Energy Technologies and Combustion Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomass energy technologies	Combustion safety issues
Energy production from biomass	Biomass combustion technologies
Biomass conversion technologies	Biomass power generation technologies
Biomass and waste-to-energy technologies	Anaerobic digestion
Pretreatment of lignocellulosic biomass	Biomass gasification technologies
Biomass pretreatment technologies	Gasification systems
Wood-fired biomass energy systems	Global biomass power market trends
Combustion systems and the steam cycle
