

CALL FOR PAPERS

ICBI 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBI 2020 : International Conference on Biomedical Instrumentation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Instrumentation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Emerging Technologies
Biomedical Instrumentation
Biomedical Equipment
Biomedical Sensors
Biomedical Metrology
Health Monitoring Devices
Low-power Design
Electrical Bio-impedance
Bio-electromagnetism
Biorobotics
Biocomputing and Biochips
Implantable Electronics
Wireless Systems and Biotelemetry

Biomaterials
MEMS
Nanotechnologies
Biomechanical Devices
Artificial Limbs
Technologies Evaluation
Electrocardiography and Heart
Monitoring
Computational Physiology (virtual
organs)
Brain-computer Interfaces
Spectroscopic Applications
Imaging and Visualization Devices
Rehabilitation Technology
Lab on a Chip and Microfluidic
Devices
