

# CALL FOR PAPERS

**ICBID 2020**  
**Feb 10-11, 2020**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBID 2020 : International Conference on Bacterial Infectious Diseases is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bacterial Infectious Diseases. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |                               |  |
