

CALL FOR PAPERS

ICBOFM 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBOFM 2020 : International Conference on Biological Oceanography and Fisheries Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biological Oceanography and Fisheries Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological oceanography	
Ecology of the oceans	
Activities and distributions of marine organisms	
Variety of organisms from microbial communities to large marine mega-fauna	
Tropical to polar oceans	
Land-ocean interface	
Deep-ocean	
Marine biodiversity	
Marine mammals	
Marine microbial ecology	
Biogeochemical modeling	
Observations, laboratory experiments, spatial analysis and theoretical models	
Numbers of individuals of various species	
	The concentration of a nutrient
	Invertebrates
	Fungi
	Vertebrates
	Fish
	Ecology, evolution, population genetics, and conservation of marine organisms
	Deep-sea corals
	Marine invertebrates
	Deep-sea whale falls
	The distribution of a gene
	Geological oceanography
	Chemical oceanography
	Physical oceanography
