

CALL FOR PAPERS

ICCSD 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSD 2020 : International Conference on Computer System Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer System Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer systems design
Architectural design
Logical design
Physical design
Alternative design methodologies
Rapid application development
Joint application design
Systems and complexity
Elements of computer system organization
The design of naming schemes
Enforcing modularity with clients and services

Enforcing modularity with virtualization
Performance
Fault tolerance
Atomicity
Consistency
Information security
Computer systems design for energy efficiency
Networking and operating systems
Transaction systems
Distributed systems
Architecture, and software engineering
