

CALL FOR PAPERS

ICCSDEA 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSDEA 2020 : International Conference on Computer-Supported Diagnosis and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Supported Diagnosis and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-supported diagnosis
Methodology
Sensitivity and specificity
Absolute detection rate
Applications
Computer-aided diagnosis and
artificial intelligence in clinical
imaging
Quantitative image analysis
Breast cancer
Lung cancer (bronchial carcinoma)
Colon cancer
Coronary artery disease
Congenital heart defect

Pathological brain detection (pbd)
Alzheimer's disease
Nuclear medicine
Diabetic retinopathy
Pre-processing methods
Feature extractions and
classifications
New paradigms and perspectives
Engineering applications
Future directions
Technological perspectives
Recent developments in computer
aided diagnosis
Multiple instance learning for
computer aided diagnosis
