

CALL FOR PAPERS

ICEMA 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMA 2020 : International Conference on Electronics, Mechatronics and Automation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronics, Mechatronics and Automation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent mechatronics, robotics, biomimetics, automation, control systems,
Opto-electronic elements and Materials, laser technology and laser processing
Elements, structures, mechanisms, and applications of micro and nano systems
Teleoperation, telerobotics, haptics, and teleoperated semi-autonomous systems
Sensor design, multi-sensor data fusion algorithms and wireless sensor networks
Biomedical and rehabilitation engineering, prosthetics and artificial organs
Control system modeling and simulation techniques and methodologies
AI, intelligent control, neuro-control, fuzzy control and their applications
Industrial automation, process control, manufacturing process and automation
Mechanical Engineering Testing
Mechanical System Engineering

Hydraulic Transmission and Control
Application of Hydraulic Technology
Fault Diagnosis and Troubleshooting of Hydraulic System
Design and Use of Hydraulic Servo System
Electromechanical Transmission Control
Robot
Design and Application of Electromechanical Control System
Measure Control Technology and Intelligent System
Mechanical Control and Information Processing Technology
Engineering Applications of Programmable Controller
