

CALL FOR PAPERS

ICEPTESVR 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPTESVR 2020 : International Conference on Electric Power Transformer Engineering and Step-Voltage Regulators is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Power Transformer Engineering and Step-Voltage Regulators. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric power transformer engineering
Theory and principles
Equipment types
Power transformers
Distribution transformers
Phase-shifting transformers
Rectifier transformers
Dry-type transformers
Instrument transformers
Step-voltage regulators

Constant-voltage transformers
Ralph ferraro
Reactors
Loading and thermal performance
Transformer connections
Transformer testing
Load-tap-change control and transformer paralleling
Power transformer protection
On-line monitoring of liquid-immersed transformers
Transformer installation and maintenance
