

CALL FOR PAPERS

ICFMDP 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMDP 2020 : International Conference on Family Medicine and Disease Prevention is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Family Medicine and Disease Prevention. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Family medicine
Current diagnosis and treatment in family medicine
Family medicine and nursing
Family medicine and care management
Family medicine and community health
Patient empowerment for patient self-management
Ethical problems in family medicine

The role of family medicine in undergraduate medical education
Motivational interviewing in family medicine
Prevention and health promotion in clinical practice
Environment and health in family medicine
Measuring effectiveness in family medicine
Future and innovation in family medicine
Family medicine and sustainability
