

# CALL FOR PAPERS

**ICGGG 2020**  
**Feb 10-11, 2020**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGG 2020 : International Conference on Global Geophysics and Geotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Global Geophysics and Geotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Global geophysics  
Mineralogy and petrology  
Gravity and magnetic methods  
Exploration seismology  
Geophysical signal processing  
Geological engineering and groundwater  
Nuclear geophysics  
Remote sensing and GIS in geomorphology  
Tectonics and crustal evolution  
Geophysics market  
Petroleum geology  
Environmental geology

Geology and mineral resources  
Geological engineering  
Tectonics and sedimentation  
Structural geology  
Exploration geophysics  
Mining geology  
Volcanology  
Physical geology  
Geomorphology  
Geophysics and geodynamics  
Planetary geology  
Environmental geology
